

September, 2014

Dear Supporter,

For the past 11 years the Leukemia Research Foundation has been proud to be the official beneficiary of the Kingfish Shootout. To date the weekend festivities have generated more than \$750,000 in support of our mission which is *to conquer ALL blood cancers by funding research into their causes and cures, and enriching the quality of life of those touched by these diseases.*

Outside of our chapter events the Kingfish Shootout is the number one fundraising event for the Leukemia Research Foundation and become a landmark fishing tournament on the Florida coast.

The dedication of the C-Quarters Marina staff and volunteers has been truly amazing and the support of marina owner Jimmie Crowder has been nothing short of incredible. After the loss his daughter, Lisa Crowder Jackson, to leukemia in 2002, Jimmie and all those at C-Quarters, created this event in Lisa's memory to help fund scientists searching for a cure so others could benefit from these life-saving research projects.

The impact of the support generated by the Kingfish Shootout continues to fuel the mission we serve. We will continue our work until the ultimate cure is found and we hope this event continues to help us along the way!

Sincerely,

Kevin Radelet
Executive Director
